ABOUT CHRYSALIS SPECTRUM BEAUTY

Surgery recovery is the staple of seeing optimum results. Let Chrysalis Spectrum Beauty assist with maximizing your results.

Chrysalis Spectrum was established in 2017 with a goal to provide personal care services to individuals who are aging and disabled. Over the years our organization has received praise as being one of the best personal care agencies in Northwest Houston receiving five-star reviews from clients, their families, and physicians.

- Nine years of 5-star reviews
- Seven years of zero citations from Texas Health and Human Services surveys
- Locally owned & operated in Vintage Park

We are proud to be a trusted name in personal care throughout our community.

A New Chapter: Expanding Our Vision in 2024

Recognizing an unmet need, Dr. Alisa Elliot, founder and agency administrator decided to expand Chrysalis Spectrum services into post operative personal care and paramedical tattoo industry:

Post-Surgical Recovery Care

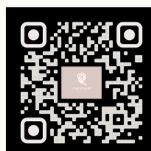

For individuals healing from cosmetic procedures, we provide:

- Short-term in-home assistance
- Medication reminders
- Light meal prep and mobility help
- Transportation to follow-up appointments
- Healing at home reduces complications, eases stress and restores confidence.

Beyond care, we help clients regain confidence through paramedical tattooing—a non-invasive scar camouflage technique that:

- Minimizes the appearance of scars & stretch marks
- Matches your natural skin tone
- Supports emotional healing and self-image

Whether scars come from surgery, childbirth, or weight changes—our approach is discreet, artistic, and effective. We're the first agency in Texas offering both in-home post-op care and advanced scar camouflage.

PROPER RECOVERY OPTIMAL RESULTS

Why Clients & Physicians Choose Chrysalis Spectrum

- Trusted Caregivers
- Medically Informed Leadership
- Fully Compliant & Certified
- Innovative Scar Revision Technology
- Financing Available through Cherry

Why Physicians and Clients Choose Chrysalis Spectrum

Chrysalis Spectrum is the preferred post-surgical care provider for one reason: we go beyond basic recovery.

As a locally owned and operated agency, we take pride in offering care that is:

- Affordable
- Reliable
- Compassionate
- Tailored to each client's needs

We design individualized recovery plans that ensure every client receives the highest level of care—and the best possible results.

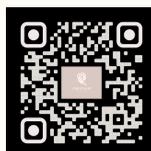

But we don't stop there. We serve as a bridge between the physician and the patient, reinforcing discharge instructions and reporting progress or concerns as needed.

Let's face it—surgery is the easy part. The real transformation happens during recovery, and that's where things can fall through the cracks. Once a patient is home, physicians have limited visibility and control. That's where Chrysalis Spectrum steps in.

Our caregivers ensure:

- Post-op instructions are followed
- Medications and restrictions are respected
- Clients rest, recover, and heal in peace

Using our services as part of a complimentary recovery package provides patients with the support, supervision, and peace of mind they need—without burdening loved ones with caregiving responsibilities.

POST OP COSMETIC PERSONAL CARE

At Chrysalis Spectrum Beauty, we offer short-term personal care services starting at just 4 hours and extending as long as needed to support a safe and complete recovery.

We are a licensed Personal Assistance Services (PAS) provider under Texas Health and Human Services, ensuring the highest standards of care, professionalism, and compliance.

Whether you need a few hours of help or ongoing support, our team is here to meet your needs with compassion and reliability.

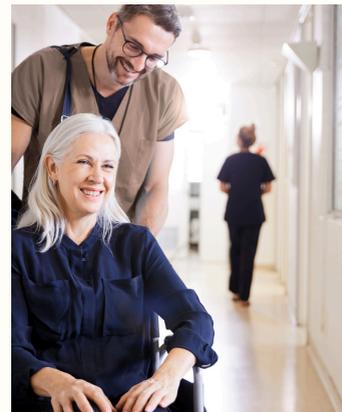

CARE ASSISTANT

Our trained caregivers provide personalized assistance during the recovery process to ensure clients feel safe, cared for, and stress-free.

Services Include:

- Medication reminders
- Bathing and hygiene assistance
- Dressing and grooming
- Toileting support
- Light meal preparation
- Running errands
- Light housekeeping
- Recovery documentation and progress tracking

Let Chrysalis Spectrum Beauty take the pressure off you and your loved ones, so you can focus on what matters most: healing and results.

CHECK IN & DISCHARGE

Our Personal Care Assistants provide safe, reliable transportation to and from medical facilities, ensuring clients arrive on time and return home or to their recovery location with proper support.

We assist with:

- Check-in on procedure day – Ensuring timely arrival and emotional support
- Post-op discharge support – Reviewing aftercare instructions and helping clients transition safely
- Transportation to the recovery location – Home, hotel, or post-op suite
- Settling in and beginning recovery – Assistance with comfort, positioning, and essentials

This service ensures clients are never alone during a vulnerable time and can begin healing safely and correctly from the very start.

SCAR REVISION & CAMOUFLAGE SERVICES

At Chrysalis Spectrum Beauty, we offer professional scar revision services designed to reduce the appearance of scars resulting from:

- Cosmetic surgery (e.g., tummy tucks, breast augmentations, facelifts)
- Injury or trauma
- Mastectomy or other medical procedures
- Stretch marks
- Dark spots and discoloration
- Vitiligo and hypopigmentation

This service can be offered as a complimentary add-on to surgical procedures, allowing physicians to enhance patient outcomes and improve aesthetic satisfaction during recovery.

Science-Backed Pigmentation You Can Trust

We proudly partner with NUE Conceal, a leading innovator in scar camouflage technology.

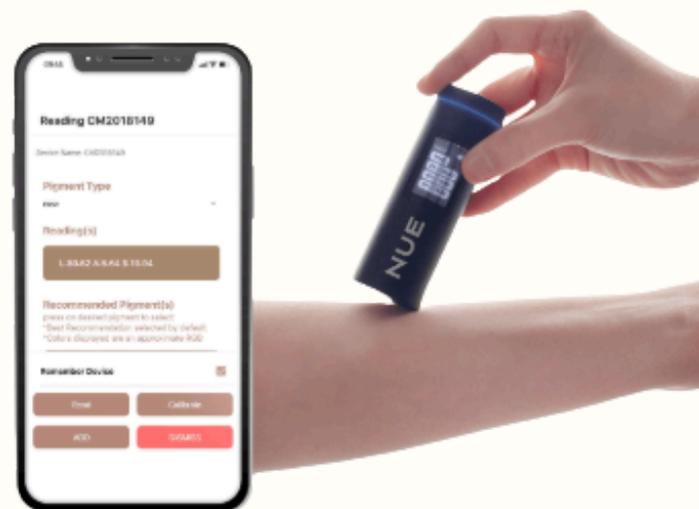

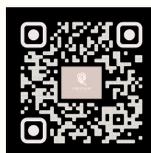

- Medical-grade pigments scientifically designed to blend with natural skin tones
- Exclusive color-matching tool that delivers exact pigment chemistry for optimal camouflage
- Inkless tattoo serums that stimulate collagen production and improve skin elasticity without adding pigment

Advanced solutions for minimizing visible skin trauma and restoring confidence.

These paramedical tattooing techniques are ideal for post-surgical recovery, helping clients feel more confident in their skin by minimizing visible reminders of past procedures or trauma.

Whether you're a physician seeking to enhance patient satisfaction, or a client looking to regain your confidence—Chrysalis Spectrum Beauty is here to support healing that goes beyond the surface.

INKLESS & CAMOUFLAGE SERUMS

Founded in April 2021, NUE CONCEAL has experienced swift expansion and is now operating in over ten countries, with the United States as its largest market. Nue Conceal serums for inkless and pigmented tattoos are among the rare, possibly the only, CE certified skin tone tattoo inks available, guaranteeing their safety for use.

The innovative skin tone reading device and mobile application from Nue Conceal allow Nue artists to match each client's skin tone more easily and accurately.

Nue Regen works by stimulating the skin's natural healing processes, promoting the regeneration of skin cells, and improving skin elasticity and firmness.

Nue Regen is an advanced serum designed to improve skin texture, targeting stretch marks, scars.

These pigments are expertly designed to blend seamlessly with diverse skin tones, providing long lasting and stable color for scar camouflage, stretch mark revision, and other skin imperfections.

The advanced formula ensures excellent color retention and healing, enabling practitioners to deliver precise treatments while minimizing the appearance of scars and discoloration. Infused with regenerative ingredients, these pigments not only offer natural coverage but also support skin healing and repair for optimal results.

Nue Conceal pigments are among the rare, possibly the only, CE certified skin tone tattoo inks available, guaranteeing their safety for use.

Our rates include consultation, color matching, and aftercare guidance. Three or more sessions is recommended to maximize results.

SCARS

Tummy tuck 180, Tummy tuck 360, breast surgery scars, face lift scars, radiation dots, liposuction scars, minor injury scars and scars from skin trauma including acne

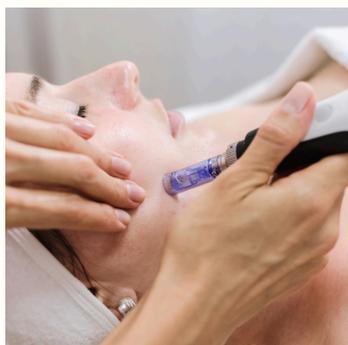

CAMOUFLAGE

Vitiligo, dark spots, stretchmarks, albinism, hyperpigmentation. These discoloration types may not respond to creams or lasers alone. That's where paramedical tattooing can help by blending skin tones using pigment-matching techniques to restore a natural appearance.

STRETCH MARKS

Flat rate fee per area: both shoulders, both upper arms, both hips, upper stomach, lower stomach, both breast, buttock, upper back, middle back, lower back, front legs, back of legs, front knee, back of knee, and inner thighs.

PACKAGES

We have several packages available at special pricing including financing through Cherry. We accept payments from Afterpay and Klarna as well.
